Summary

I build and support web applications that connect user interfaces, APIs and relational data. I work in TypeScript and PostgreSQL, and I stay with production changes long enough to understand what they do for users.

Skills

- TypeScript, React
- PostgreSQL, Webhooks
- Node.js, APIs
- AWS, Docker

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Build and operate client software from requirements and delivery through production support.
- Built a TypeScript and PostgreSQL operations platform spanning client records, ticketing and billing.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Ran hosted web services, developed in PHP and JavaScript, and worked on the billing system.
- Led NOC escalation and built tools for production troubleshooting.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built Node.js provisioning tools and a front-desk interface for customer network support.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Supported customer networks and endpoints, handled on-call escalations and built repeatable diagnostics.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Wrote Perl, Bash, VBA and PHP scripts; built an internal backup tool that reduced reliance on paid licensing.

Selected Projects

NuPrice

Long-term client product

- Built and operated marketplace repricing software using competitor data, customer rules and external integrations.

Proofmark

Client product

- Built across the React interface, PostgreSQL, APIs and outbound webhooks on a signing workflow.

Technomancy IT: Client Operations

Own practice platform

- Built shared records for requests, appointments and billing so teams could work from the same client context.

Education

Front Range Community College

Computer Science coursework

2011 - 2013
